INCIDENT MANAGEMENT SITUATION REPORT SATURDAY, NOVEMBER 20, 1999 - 0900 MST NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

New large fire activity was reported in the Southern Area. Containment objectives were reached on fires in the Rocky Mountain, Eastern and Southwest Areas. Moderate to high initial attack activity occurred in the Eastern and Southern Areas. The National Interagency Coordination Center mobilized helicopters, large transport aircraft, lead planes, infrared aircraft, telecommunications equipment, crews, a Type I Incident Management Team and miscellaneous overhead. Very high to extreme fire indices were reported in Utah, Arizona, Colorado, Kansas, Nebraska, South Dakota, Illinois, Indiana, Missouri, Georgia, Kentucky, Mississippi, Oklahoma and Tennessee.

SOUTHERN AREA LARGE FIRES:

STANTON COMPLEX, Daniel Boone National Forest. A Type I Incident Management Team (Bennett) is now in place and is now handling all fires on the Stanton Ranger District. The fires are eleven miles east of Stanton, Kentucky. The Coppers Creek fire has been added to this complex. Additional resources have been ordered.

BOOTENS GAP, Shenandoah National Park. A Type I Incident Management Team (Carvelho) is assigned. This fire is ten miles east of Shenandoah, Virginia. Good progress was made on containment objectives.

AVEY COMPLEX, National Forests in North Carolina. A Type II Incident Management Team (Kearney) is assigned. The fires are five to eight miles from Robbinsville, North Carolina. Weather conditions were favorable and aided in containment efforts. Crews continued to make good progress building fireline.

NARROWS, Ozark and St. Francis National Forests. This fire is 20 miles north of Russelville, Arkansas. Burnout operations are being completed to contain the fire within natural barriers.

MOSES CREEK, National Forests in North Carolina. This fire is 15 miles east of Cullwhee, North Carolina. The fire is burning in hardwood litter within the Wayechutta ATV trail system. Dozer line aided crews in fireline construction and burnout operations are nearing completion. This was originally two separate fires which burned together.

OLD ROUGHY, National Forests in North Carolina. This fire is five miles north of Robbinsville, North Carolina. Air support was used as a reinforcement for crews during burnout operations. Six structures were successfully protected.
